Updated Communication

November 17, 2015

New Pharmacy Network for UnitedHealthcare Community Plan
Medicaid and Child Health Plus Plans ONLY - Dec. 1, 2015

UnitedHealthcare Community Plan of New York is transitioning to a new pharmacy network for our Medicaid and Child Health Plus members. Your pharmacy is included in the new UnitedHealthcare Community Plan pharmacy network.

Effective Dec. 1, 2015 there will be fewer pharmacies in New York that can bill for prescriptions for UnitedHealthcare Community Plan Medicaid and Child Health Plus members; however, YOUR pharmacy is included in the new UnitedHealthcare Community Plan pharmacy network.

Our Medicaid and Child Health Plus members will receive a letter about the pharmacy network change, which will explain the steps they need to take to transfer their prescriptions to a participating pharmacy like yours. If a member presents either one of the following sample member identification cards, please accommodate their requests and assist with the transfer of their prescriptions to your pharmacy or call their provider for prescriptions.

Sample Medicaid and Child Health Plus Member identification cards
